

Parent/Carer Help and Advice

It is our experience that each parent/carers is very different – some of you like to speak often with us, some of you prefer to talk to us at designated events and occasionally parents/carers have a need to speak urgently with someone. All of these approaches are encouraged as we want to work closely with you to offer the best support for your son/daughter. However, we have found it helps if you know who to speak to. With this in mind we have produced a flow chart that should help to navigate our school system and get right to the person who can answer your questions.

Hopefully, in speaking to some of the people above your question(s) will be answered. If, however your question/issues turns into a complaint please refer to the policies section of the website where you will find our complaints policy.
