

Deyes Staff Profile

Name:

Mrs Porter

Role in school:

Subject Lead Teacher for Physics

Where you can be found:

In Rm 55, in the science staff workroom, or in the Prep Room where our wonderful technicians get all our equipment ready for your experiments.

What you do as part of your role:

I teach all of the Science subjects Physics , Chemistry and Biology to Years 7, 8 and 9 but only Physics to GCSE and A level students

As the Lead Teacher for Physics. I work alongside all the other science teachers and technicians to make sure your lessons as exciting as they can be.

Hobbies and interests:

At home my garden is my 'happy place' so you'll see that my lab has lots of plants that I'm looking after.

I've always been interested in astronomy so when I find time I enjoy reading about space and searching the night sky for galaxies and nebulae I haven't seen before.

I also enjoy the challenge of finding out about my family history and the lives of my ancestors.

Favourite things...

Book: Really difficult to choose just one, but probably 'The Three Musketeers' by Alexander Dumas (and the other books in this series)

TV show/film: I'm a big Star Wars fan - 'The Empire Strikes Back' has to be my favourite of them all.

Colour: Definitely green!
