# **PUBLIC EXAMINATION**

## **2025-2026**

For the formal GCSE and vocational assessments that are due to be completed in the summer examination series, candidates will receive a personalised timetable, detailing when their exams are scheduled to take place, the duration of the examination and the seating arrangements. Please note that as these are public examinations, the school cannot change the date, start time, or duration. Laws of the governing exam boards dictate exactly when the exams are scheduled, and school does not have the authority to change times or dates. Where there is a timetabled clash between two or more subjects, the centre will inform the candidate of any amended arrangements in line with JCQ regulations. Candidates are required to be available for the full examination series, up to and including any Contingency Days, which can be any day up to and including **Wednesday 24<sup>th</sup> June 2026**. This means that students **MUST** be available to sit exams from the start of the exams until Wednesday 24<sup>th</sup> June 2026 included and not away on holiday. This decision is not a school decision and does apply to all candidates in all schools, in line with JCQ regulations.

Please check relevant exam timetable when available and make a note of the new reserve exam date especially with regards to holidays and weddings.

Coursework assessments

Effective from 1 September 2025

Produced on behalf of:

This document tells you about some things that you **must** and **must not** do when you are completing coursework.

When you submit your work for marking, you will be asked to sign an authentication statement confirming that you have read and followed these regulations.

If there is anything that you do not understand, you **must** ask your teacher.

In some subjects you will have an opportunity to do some independent research into a topic. The research you do may involve looking for information in published sources, such as textbooks, encyclopedias, journals, TV, radio and on the internet.

You can demonstrate your knowledge and understanding of a subject by using information from sources, or generated from sources, which may include the internet and AI. Remember, though, information from these sources may be incorrect or biased. You **must** take care how you use this material - you **cannot** copy it and claim it as your own work.

The regulations state that:

‘the work which you submit for assessment **must** be your own’;

‘you **must not** copy from someone else or allow another candidate to copy from you’.

If you use the same wording as a published source, you **must** place quotation marks around the passage and state where it came from. This is called ‘referencing’. You **must** make sure that you give detailed references for everything in your work which is not in your own words. A reference from a printed book or journal should show the name of the author, the year of publication and the page number. For example: (Morrison, 2000, p29).

For material taken from the internet, your reference should show the date when the material was downloaded and **must** show the precise web page, not the search engine used to locate it. This can be copied from the address line. For example: [http://news.bbc.co.uk/onthisday/hi/dates/stories/october/28/newsid\\_2621000/2621915.stm](http://news.bbc.co.uk/onthisday/hi/dates/stories/october/28/newsid_2621000/2621915.stm), downloaded 5 February 2026.

Where computer-generated content has been used (such as an AI chatbot), your reference **must** show the name of the AI tool used and should show the date the content was generated. For example: ChatGPT 3.5 (<https://openai.com/blog/chatgpt/>), 25/01/2026.

You should also reference the sources used by the AI tool in generating the content.

You **must** retain a copy of the question(s) and computer-generated content for reference and authentication purposes in a non-editable format (such as a screenshot) and provide a brief explanation of how you used it. This **must** be submitted with your work for final assessment so that your teacher can review the work, the AI-generated content and how it has been used.

You may be required to produce a bibliography at the end of your work. This **must** list the full details of publications you have used in your research, even where these are not directly referred to. For example: Curran, J. *Mass Media and Society* (Hodder Arnold, 2005).

**If you copy the words, ideas or outputs of others and do not show your sources in references and a bibliography, this will be considered as cheating.**

## Preparing your coursework – good practice

If you receive help and guidance from someone other than your teacher, you **must** tell your teacher. They will then record the nature of the assistance given to you.

Your parent/carer may provide you with access to resource materials and discuss your coursework with you. However, they **must not** give you direct advice on what should or should not be included.

If you worked as part of a group on an assignment, you **must each** write up your **own account** of the assignment. Even if the information you have is the same, the description of how that information was obtained and the conclusions you draw from it should be in your own words.

You **must** meet the deadlines that your teacher gives you. Remember – your teachers are there to guide you. Although they cannot give you direct assistance, they can help you to sort out any problems before it is too late.

Take care of your work and keep it safe. **Don't** leave it lying around where your classmates can find it. **Don't** share it with anyone, including posting it on social media. You **must always** keep your work secure and confidential. If it is stored on the computer network, keep your password secure. Collect all copies from the printer and destroy those you do not need.

**Don't be tempted to use any prepared or generated online solutions and try to pass them off as your own work – this is cheating.**

Electronic tools used by awarding bodies can detect this sort of copying.

You **must not** write inappropriate, offensive or obscene material.

# Plagiarism

Plagiarism involves taking someone else's words, thoughts, ideas or outputs and trying to pass them off as your own. It could also include AI-produced material. **Plagiarism is a form of cheating which is taken very seriously.**

**Don't** think you won't be caught; there are many ways to detect plagiarism.

- Markers can spot changes in the style of writing and use of language.
- Markers are highly experienced subject specialists who will be familiar with work on the topic concerned. They may have read the source you are using or even marked the work you have copied from.
- Internet search engines and specialised computer software can be used to match phrases or pieces of text with original sources. They can detect changes in the grammar and style of writing or punctuation.

## Sanctions for breaking the regulations

If it is discovered that you have broken the rules, one of the following sanctions will be applied:

- you will be awarded zero marks for your work;
- you will be disqualified from that unit for that examination series;
- you will be disqualified from the whole subject for that examination series;
- you will be disqualified from all subjects and barred from entering again for a period of time.

The awarding body will decide which sanction is appropriate.

The regulations state that:

‘the work which you submit for assessment **must** be your own’;

- If you're not sure what you can and can't discuss online, check with your teacher

**JCQ** Things not to do on social media:

- the date, time and location of each of your exams. You might find it helpful to write this information in a calendar or planner.
- who to contact at school or college in case there's an emergency that makes you late or unable to sit your exam.

## What you cannot take into your exams:

- any type of phone
- revision notes
- any type of watch (this includes analogue, digital and smart watches)

## What you will need:

- a clear pencil case
- at least two black ink pens – blue pens are **not acceptable**

- a clear water bottle if you wish to take one in. It **must not** have a label

## Other important information:

- Fill in your details on the front of your answer booklet.
- If you need an additional answer sheet, raise your hand and wait for an invigilator to provide one. Remember to add your details to this sheet.
- If you need to use the toilet or feel unwell, raise your hand and wait for an invigilator to escort you from the exam room.
- Remember to stay silent – talking to a fellow candidate could result in disqualification from all your exams.

## Contingency sessions:

- There are contingency sessions within the Summer 2026 exam timetable on the morning and afternoon of 24 June 2026. Make sure you are available on 24 June 2026.

### What is AI?

- AI stands for artificial intelligence and using it is like having a computer that thinks
- AI tools like ChatGPT or Snapchat My AI can write text, make art and create music by learning from data from the internet, but watch out – they can also make things up and be biased

### How can AI be misused in assessments?

AI misuse is when you take something made using AI and say it's your own work.

**THIS IS CHEATING!**

### How do I make sure I don't misuse AI?

#### 1 Know the rules

- You're **not allowed** to use AI tools when you're in an exam
- Your teachers will tell you if you're allowed to use AI tools when doing your coursework – the rules will depend on your qualification
- Even if you're allowed to use AI tools, you can't get marks for content just produced by AI – your marks come from showing your own understanding and producing your own work

#### 2 Reference reference reference!

- If you're allowed to use AI tools, you must reference them clearly
- Name the AI tool you used
  - Add the date you generated the content
  - Explain how you used it
  - Save a screenshot of the questions you asked and the answers you got

#### 3 Declare it's all your own work

– When you hand in your assessment, you have to sign a declaration. Anything without a reference must be all your own work. If you've used an AI tool, don't sign the declaration until you're sure you've added all the references

### What happens if I misuse AI?

If you've misused AI, you could lose your marks for the assessment – you could even be disqualified from the subject.
